EXHIBITION OPPORTUNITIES

The future of the North Sea is in our hands. With energy at the heart of key decisions in the UK and globally, join OEUK's flagship conference as it considers the key issues shaping the business landscape.

From industrial strategy to oil and gas licensing, to the impact of President Trump and factors driving international energy investment, attendees will hear agenda-setting insights from renowned speakers in energy, policy and politics.

In a critical year for the UK offshore energy industry, the conference will provide delegates with latest thinking on subjects that will include the fiscal and regulatory regimes, supply chain, people & skills, the energy transition and supporting net zero.
